

COMPANY PROFILE

FREIGHTLINER
LOGISTICS & TRADING PLC.

**COMMITMENT
BEYOND EXCELLENCE**

What we **Offer.**

Freightliner logistics and trading provides the complete package of logistics from perishable food items to electric supplies, construction materials, chemicals, and many more to your door step or half the world away.

About US

Freightliner Logistics & trading was founded in 2013 by four seasoned professionals. Since inception, we have been providing efficient end-to-end logistics services to various customers.

Your decision to work with us will be proven to be a right decision from day one. You will be able to witness our motto "commitment beyond excellence" in action. We believe no client is a one time customer but rather a lifetime partner. We measure our success by our customers satisfaction.

When we setup Freightliner, we were certain that our years of expertise and drive to deliver exceptional service will make us stand out from the rest. With just a few years in business, we have succeeded to become among the major logistics providers in the country.

Our staff has the expertise & capability of ensuring all your logistics needs are met by using the best technology in supply chain management. So far, we have served & satisfied both local and international customers.

Core Values.

Customer Satisfaction: At Freightliner, we work tirelessly to provide our clients with the best service. We believe excellence in the field of logistics can only be achieved if we only met every detailed request of our customers.

Integrity: Balancing integrity with business practice is not a virtue every business organization achieves, but we do business ethically, honestly, and fairly.

Passion: We are very passionate about what we do, and We the owners directly manage each project.

Empathy: We understand the ups and downs of the business world well and we treat our customers the way we want to be treated.

Freightliner trade and logistics plc. have been able to work and succeed in providing logistic services to many government and private organizations. In our first few years in business, we had the opportunity to effectively handle the large-scale logistic needs of various companies.
